

Krishi Vigyan Kendra, Nizamabad (Rudrur)

Hon'ble Director Dr. Shaik N. Meera, ICAR-ATARI Zone -X, Hyderabad, on 25.05.2024 visited Krishi Vigyan Kendra, Nizamabad (Rudrur). During the visit he first inaugurated the Soil Testing Laboratory and Agricultural Technology Information Centre of Krishi Vigyan Kendra. He emphasised and stressed the importance of soil testing and encouraged farmers to utilise the services of KVK. Later, opened the information corner and QR codes pertaining to the information on success stories, Kisan sarathi, Soil testing & demo units. Visited the demo units of Vermicompost and Mango grafting units which are integrated with information with QR codes.

An interaction session was organised with progressive farmers, beneficiary farmers and skill training trainees during which farmers are encouraged to go for value addition, branding and unique marketing strategies through various means. Distributed certificates to the trainees who successfully completed skill training in tailoring under SC Subplan and distributed tailoring machines for establishment of units and as an earning source for the financial upliftment of the women. Also, during the interaction emphasised the need & importance of collaborative activities with NABARD that could help in reaching the benefits to grass root level effectively.
