KVK : KVK KARUR

DATE : 09/11/2024

TITLE : Diagnostic Field Visit to Banana

VENUE : Valanthur, Kulithalai Block

ACTIVITY :

1. Field visit made to OFT on foliar spraying of multi nutrient solution (NRCB Banana Shakti and NAU novel liquid) on yield enhancement in Banana to observe the crop growth and leaf symptoms for micro nutrient deficiency.
2. The crop growth was good and the micro nutrient deficiency was negligible in treated plots.
3. Distributed OFT input for continued application.
4. Also observed the intercropping of Amaranthus and coriander in banana field based on KVK recommendation and explained about ICAR NRCB latest technology on clump management and No to wilt bioproduct.

Staff involved: SMS-SS, Horti and SSH.

Participants type & No: Farmers; SC - 7
