KVK : KVK Salem
Date : 09.08.2024
Title : DAPSC - Farmer Field School.
Venue : Sundakapatti village, Kadayampatti Block..

Activity:

Under DAPSC, the Farmer Field School entitled "ICM in Chrysanthemum" is being organised. This is the second class. The following points were discussed.

- 1) Last fortnight during inaugural session, the participants were asked to bring soil & water sample for analysis. In continuation of the same, today the session on soil health & soil test based nutrient management was organised.
- 2) Briefed on how to interpret the soil health data or value and how to calculate fertilizer requirement for individual farm holdings.
- 3) Explained Soil test based fertilizer recommendations and its significance.
- 4) Briefed on ways & means for Improving Soil health & physical properties especially through inclusion of organic inputs & farm waste recycling & composting
- 5) Issue of soil health card to FFS participants.

FFS Village : Sundakapatti village, Kadayampatti Block.

Staff involved: SMS (SS&AC) & SMS (Extn)
