TITLE : Visit to OFT Marigold field and Diagnostic Field Visit

VENUE : Yagantipalle Village

ACTIVITY :

1. Visited the OFT field (Assessment of marigold hybrids Arka Abhi & Arka Bhanu) at Yagantipalle village. The crop is at the harvesting stage.
2. Recorded maximum plant height (121cm&105cm), more no of branches (19&17) and 10 flowers weight (121g&105) in Arka Bhanu and Arka Abhi followed by farmer practice Liril Yellow.
3. Noticed uniform size flowers, bright color and good keeping quality in Arka hybrids.
4. Observed early flowering & harvest (45days) in Liril yellow hybrid and one week late by Arka hybrids. Yield data to be recorded.
5. Diagnostic field visit to chilli crop and noticed powdery mildew and nitreint deficiency and suggested to spray Azaxistrobin @1ml + Agromin max@5 g per lit.

Scientist & Officials involved : Dr. G. Dhanalakshmi, SS&H. M.Adinarayana, SMS (Hort.)
